### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6, drawn to method of heat treating and extruding a light metal alloy.

Group II, claim(s) 7-16, drawn to a heating and cooling device.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the inventive feature of group I is a process of heat treating, cooling, extruding, and temperature equalization, while the inventive feature of group II is a device for heating and cooling.

3. A telephone call was made to Don Bulson on March 18, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
